Bubbles in the wind

Startown Primary School has been invited by an organisation called OPAL to take part in an exciting new weather survey. It has asked the school to see if they can find out about the wind using bubbles!

★ Your challenge

Help the children of Startown Primary find out how to use bubbles to show how the wind moves.

Talk about

- ★ Practice blowing bubbles and look at how they move.
- ★ What happens to the bubbles when the wind blows?
- ★ How could you use bubbles to help you learn about the wind?

★ Here are some ideas to get you started

You will need a bubble blower and solution. You can also use a timer, compass, measuring tape, sticks or anything else you choose.

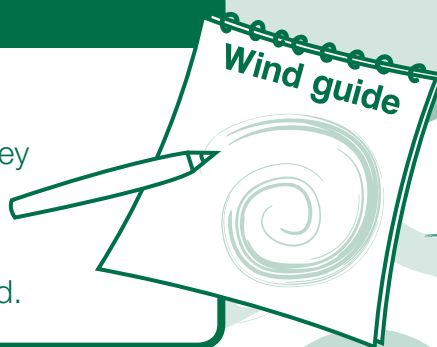

- ★ Try to use the bubbles to find out which direction the wind is blowing.
- ★ Try to use the bubbles to find out how fast the wind is blowing.
- ★ Can you use your bubbles to find out anything else about the wind?

★ Now you can start investigating the wind

- ★ Remember to stay in your group and watch out for other people.
- ★ It is easier to investigate the wind if you use a few bubbles at a time.

★ Sharing your ideas

- ★ Make a chart to show your findings.
- ★ Draw a picture of bubbles to show how they move in the wind.
- ★ Create a 'wind guide' for someone else who wants to find out more about the wind.

Congratulations!

You are a wonderful wind explorer.

Collect your stickers and get ready for your next challenge.

★ Here are some extra challenges

- ★ Make a wind sock.
- ★ Make a daily record of the wind.
- ★ Find out if the wind blows differently in different places.
